### **D600 Family**

Menomonee Falls, WI - Trombetta features the D600 family of electric solenoids.

The D600 family like the D500 is constructed with dual winding (pull and hold) and contains an integral cutout switch for high-energy pull performance with cool, continuous control. The D600 family provides solutions for applications such as industrial brakes/clutches, clamping/locking, large engines, high lift equipment, boom locks and agricultural equipment.

This family offers a stroke of 1 inch and a maximum force of 14 pounds.

Trombetta offers a variety of solenoids for various applications and has made it easy for customers to determine initial potential solutions to their motion applications.

Based in Menomonee Falls, Wisconsin, Trombetta has been a leading manufacturer of industrial work solenoids, DC contactors, electronic controls and engineering services for over seventy years.
