Trombetta Motion Technologies To Participate at IUV Technology 2005

IUV Technology 2005 will focus on the latest advancements in the design, engineering and manufacturing of lift trucks, industrial & utility vehicles, mobile equipment and special-purpose off-highway vehicles and equipment. Topics discussed will include new developments in technology, market conditions and end-user requirements that are driving innovation, new product capabilities and features, application trends and performance improvements today and in the future.

"With the help of technology leaders such as Trombetta Motion Technologies, IUV Technology 2005 is turning out to be a fantastic event for the industrial & utility market," said conference chairman Nick Depperschmidt. "Our attendees and exhibitors alike are excited about the possibilities the event will offer, which include great networking opportunities and the chance to build lasting business relationships with numerous contacts in multiple markets."

The conference is organized by Industrial & Utility Vehicle magazine and produced by Webcom Communications Corp., the magazine's publisher.

Based in Menomonee Falls, Wisconsin, Trombetta has been a leading manufacturer of industrial work solenoids, DC contactors, electronic controls and engineering services for over seventy years.
